Response to Amendment

The reply filed on 04-30-2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the response failed to specifically detail any arguments as to how the objection to the specification (not providing antecedent basis for a clip having two jaws rotatable about one axis and having a linear bearing, or the force-parallelism being as a result of a parallelogram hinge or a linear bearing) was overcome, and additionally failed to point out what was agreed to concerning these points in the interview which might have overcome these objections. The only figure with a linear bearing and rotatable jaws is fig. 9A, but these jaws do not appear to rotate about one axis. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
